TANKTECH (M) SDN BHD

INTRODUCTION

Tank Tech (M) Sdn Bhd is a private limited company incorporated since 2001. Tank Tech is the sole agent representing the renowned Columbian Steel Tank (CST) international group of companies, specializing in various types of storage tank products such as the PERMAGLASS™ glass fused to steel panel tanks and the TECSTORE™ epoxy baked-on steel panel tanks.

Both types of tank are widely used in Malaysia water industry due to their reputable Vitrium™ glass coating which is used for the PERMAGLASS tanks, and the latest thermosetting modified epoxy coating – KuoLon™ which is widely used for all TECSTORE storage tank products.

Tank Tech provides complete solution for both liquid and bulk storage problems – from engineering design, fabrication, supply to testing & commissioning of the storage tanks.

The advantages of the CST panel tanks are:

-  *Fast delivery*
-  *Exceptional quality and design*
-  *Corrosion & Chemical resistance*
-  *Low maintenance*
-  *Cost effective*

PRODUCT RANGE

✚ PERMAGLASS™/AQUASTORE™ Glass Fused to Steel Tank

✚ TECSTORE™ Epoxy Baked-on Steel Tank

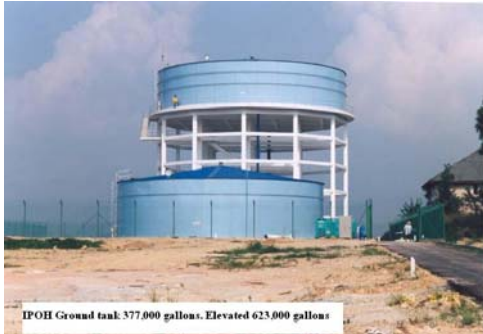

✚ COLUMBIAN TECTANK – API 12B tanks /Silos

✚ GEODOME – Aluminium Geodesic dome roof

TANKTECH (M) SDN BHD

APPLICATIONS

Potable Water Reservoirs –
Ground & Elevated

GeoDome

- installation of new tanks
- replacement / retrofit of existing roof (RC tank or panel tank)

Fire Water Tanks

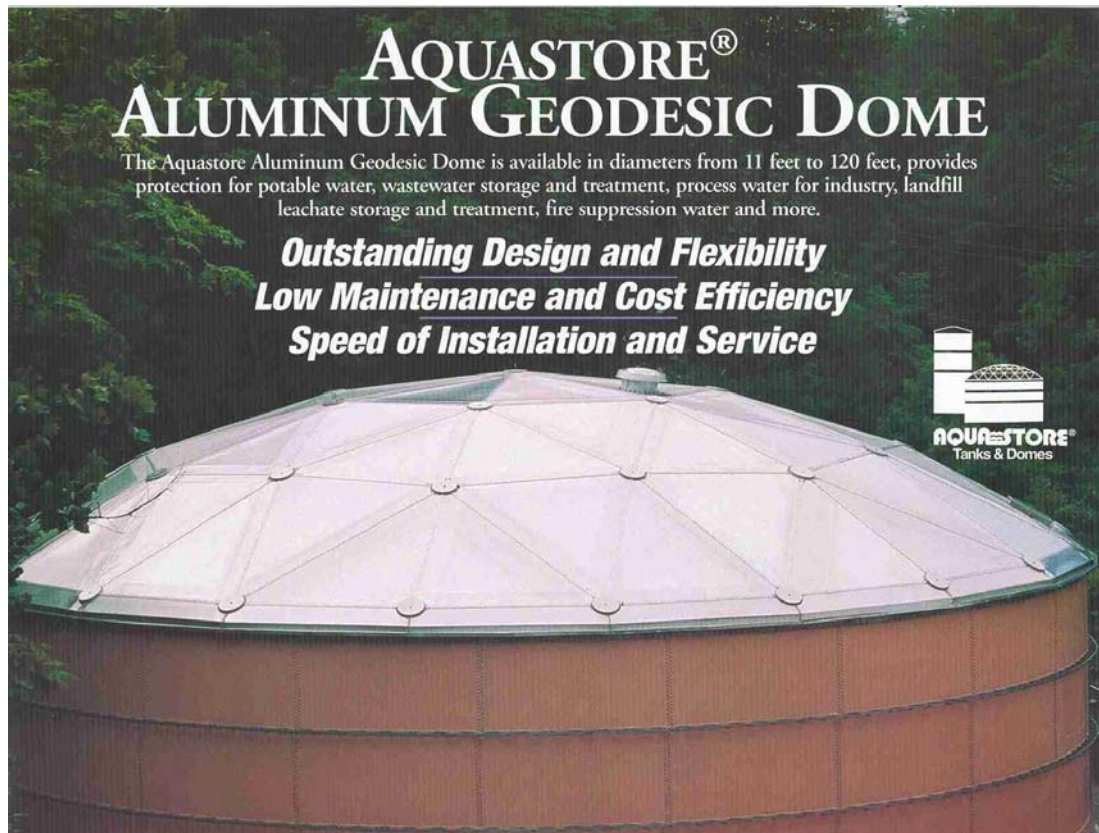

Replacement of FRP/Pressed
steel tank

Dry Bulk Storage Silos

Raw/De-mineralised Water

GEODOME™ is engineered to give a superior structural design, with all calculations and assumptions validated using ALGOR finite element analysis. Using proprietary variations of geodesic geometry, GEODOMES are noted for their ability to meet exacting live load requirements by providing greater stiffness and strength. The compact struts are fabricated with higher quality aluminum (6005A-T6), giving better protection and durability. GEODOME™ provides a low maintenance, cost effective means to protect your product.

- Exceptional Design and Quality
- Light Weight and Durable
- Strength and Safety
- Cost Effective
- Design Flexibility/Versatility (including accessories)
- Corrosion and Chemical Resistant
- ISO 9000/2000 Certified/Controls
- Lowest Maintenance
- Self Supporting
- Shortest Turn-Around (speed of fabrication and erection)
